Attention Clean Energy Regulator,

**RE: Bald Hills Pty Ltd eligibility for Renewable Energy Certificate Registration and Subsidies.**

I understand that accreditation eligibility under the *Renewable Energy (Electricity) Act 2000* (the Act), requires that any large scale wind energy power station complies with the relevant planning permit.

I draw your attention to the recent Supreme Court Judgement of Noel Uren and John Zakula v Bald Hills Wind Farm Pty Ltd, which determined Bald Hills Wind Farm Pty Ltd did not demonstrated compliance with the conditions of their Planning Permit No: TRA/03/002.

As it is the Clean Energy Regulator's responsibility to administer Renewable Energy Certificates (REC) , I ask whether the Clean Energy Regulator will commence against Bald Hills Wind Farm Pty Ltd to recover Australian tax-payer funded REC subsidies paid to it under an incorrect premise.

I believe this to be a public interest matter and ask that you attend to my request immediately.

Regards,

Viva-Lyn Millard
